Welcome to AIS Docet 2024

The 1st Edition of AIS Docet concentrates on use of Computational Intelligence and Innovative Techniques to get benefits from Digital Age and it is organized in Keqiao, the Chinese Calligraphy birth place and Textile Capital of China.

We wish you a very fruitful workshop as well as the opportunity to enjoy the town and region. We wish you a very fruitful workshop as well as the opportunity to enjoy the town and region.

Next year this Conference will be again in another location in China, probably Hangzhou, (www.liophant.org/aisdocet) and we encourage you to become active member supporting the event by proposing tracks, sessions, reviewing papers and promoting the networking.

AIS Docet Track Chairs

Strategic Engineering

*Chairs: Agostino G. Bruzzone, Simulation Team
Emilio Jimenez, Universidad de la Rioja*

Computational intelligence for Industry

*Chairs: Cecilia Zanni-Merk, Normandie Université, INSA, LITIS, France
Antonio Giovannetti, Simulation Team*

Autonomous Systems & Robotics

*Chairs: Jean-Guy Fontaine, JG-Labs
Luca Maria Gambardella, USI, Switzerland
Amar Missoum, Samtech*

Extended Reality (XR)

*Chairs: Marina Massei, DIME University of Genoa, Italy
Gerson Cunha, GRvA, Lamce, Coppe, UFRJ, Brasil*

Advanced Solutions for Industrial Risks

*Chairs: Tomaso Vairo, ASL Port of Genoa, Italy
Luca Bucchianica, Bukkia Consulting Pte Ltd.*

Innovation for Strategic Resources

*Chairs: Andrea Emilio Rizzoli, IDSIA, Lugano, CH
Marco Gotelli, Simulation Team*

Grand Challenges

*Chairs: Adriano Solis, York University, Canada
Giovanni Maria Ferraris, STRATEGOS*

Innovative Decision Support

*Chairs: Claudia Frydman, LIS, University of Aix-Marseille, France
Anna M. Sciomachen, DIEC, University of Genoa*

Digital Fruition of Cultural Heritage & Architecture

*Chairs: Grazia Tucci, Florence University
Francesco Longo, MSC-LES*

夫未戰而廟算勝者，得算多也；
未戰而廟算不勝者，得算少也；
多算勝，少算不勝，而況於無算乎？
吾以此觀之，勝負見矣。

(1)

Sun Tzu, the Art of War

(1) “the general who wins a battle makes many calculations in his temple ere the battle is fought. The general who loses a battle makes, but few calculations beforehand. Thus do many calculations lead to victory, and few calculations to defeat: how much more no calculation at all! It is by attention to this point that I can foresee who is likely to win or lose”
